

AI AGENTS. REAL IMPACT. ACROSS EVERY FUNCTION.

Unlock the power of **Microsoft Copilot** for your business.

ZaHRA

TALIA

SIRA

CORA

Meet Your **AI Workforce**

Turn **Microsoft 365 Copilot** into real business impact with **Procomix Technology Group AI agents** designed to automate **HR, Finance, and Sales** and start delivering results from day one.

Copilot gives your team the AI foundation & our purpose-built agents turn that foundation into measurable productivity without writing a single line of code.

Microsoft 365 Copilot, **amplified**

Built on Microsoft Copilot Studio

Native integration with M365, Teams, SharePoint, and your line-of-business systems. Enterprise-grade security and governance out of the box.

Department-Ready, Day One

No long deployments, no custom builds. Each agent ships with proven prompts, workflows, and guardrails for its target function.

PTG Expertise Included

As a Microsoft Partner with deep MSSP credentials, we deploy, secure, and tune every agent to your environment and business processes.

Region-Ready

English, French, and Arabic support. Designed for the regulatory and linguistic realities of MEA enterprises.

Your **AI** Team

ZaHRA – HR Agent

Your always-on HR assistant.

Automates employee queries, onboarding, policies, and document generation.

Result: Better employee experience, less HR admin.

TALIA – Financial Reconciliation Agent

Your finance operations accelerator.

Handles invoices, expenses, reporting, and compliance checks with speed and accuracy.

Result: Faster month-end, fewer errors, more control.

SIRA – Sales Intelligence Agent

Your sales performance engine.

Delivers pipeline insights, account briefings, and next-best actions to close deals faster.

Result: More selling time, stronger pipeline, higher revenue.

CORA – Code Review Agent

Delivers intelligent code reviews, detects vulnerabilities and quality issues, and provides actionable recommendations to improve code standards and compliance.

Result: Faster code reviews, higher code quality, reduced risks.
